PROFESSION SUMMARY

Motivated MCA student specializing in AI & Machine Learning with strong interest in Data Science, Cloud Computing, and Web Development. Skilled in Python, Java, Flask, and Machine Learning concepts with hands-on experience in academic and personal projects. Passionate about building real-world applications and learning modern technologies like AWS and AI frameworks.

EDUCATION

Master of Computer Application(AI DS)

Aug 2025- March 2027

Parul University, Vadodara | GPA:- 8.5/10

Bachelor of Computer Application

Aug 2021- Sept 2024

Veer Kunwar Singh University, Ara Bihar | Percentage:- 71.33

TECHINICAL SKILLS

Programming Languages: Python, Java, SQL, C,

Web Technologies: HTML, CSS, Flask, Django

Machine Learning: Scikit-learn, Pandas, NumPy,

Cloud & Tools: AWS, GitHub, VS Code, Jupyter

Database: MySQL

Core Subjects: DBMS, OOPs, Data Structures

Project

Attendance Management System | Python, Flask, MySQL

- Developed a web-based attendance system for students and teachers
- Implemented login authentication and attendance tracking features
- Designed MySQL database for storing attendance records
- Improved attendance management efficiency through automated reporting

Campus Market

- Built a Campus Market platform for students to buy and sell products within the college campus.
- Implemented product listing, search functionality, and user authentication features.
- Designed responsive user interface for smooth browsing experience across devices.
- Created backend database system to manage users, products, and transactions efficiently.

Certification

AI in Marketing | NPTEL | 2025

Hands-on Technical WorkShop
